DECATUR, ILLINOIS, THURSDAY MORNING, JULY 31, 1890.

THE NATIONAL CAPITAL

A Report of the Proceedings in Congress.

A GOOD SHOWING IN THE SENATE.

Cockrell Makes Statement as to the Amount of Business Transacted in the Senate, Showing That It Is Way Ahead of the House in Legislative Work—Leaves of Absence Requested by House Members—Senator Morrill Address on the Trifl.

WASHINGTON CITY, July 30.—In the session Wednesday the resolution offered by Sherman Tuesday for the daily meeting of the senate at 10 a.m. was taken up by Cockrell so he would support the resolution and made a long statement as to the amount of business transacted by the senate the present session showing that public business had not been neglected or the time of the senate wasted. The whole number of bills disposed of by the senate was 145. The house passed 36 out of 10,000 bills introduced. Of the senate bills passed, the house had only passed 231 while of the house bills the senate had passed 618. On the house calendar of bills pending in the committee of the whole, there were 32, of which 103 were senate bills. There were 344 senate bills (acted on by house committees) now on the house calendar with the iron heel of the one man power securely resting on that calendar. The reason that the house had not done more business and disposed of more bills, was that it ignored in its organization and in its conduct rules the fundamental principles of parliamentary discussion.

After further remarks by Cockrell to the effect that the Democratic senators would come early and stay late to facilitate legislation but they wanted the Republican senators to do the same the resolution was agreed to.

Senator Morrill on the Tariff

Morrill then a brief speech on the tariff bill. He made a general statement as to the effect of the bill. He said by adding to the free list of last year the articles which it pending bill placed on the free list, one half of the imports from foreign countries would be absolutely free from all customs duties. That meant that the absolute imports would be diminished from \$8,000,000 to \$7,000,000 and that those on the free list would be increased to \$8,000,000. If the rate of duty covered the entire imports the average rate of duty would be 27 per cent. As there was so large an amount of imports exempt from duty it was necessary to impose higher duties on articles of luxury and foreign fashion as it required skilled labor and that were consumed by those who were able to support the burden. High as the customs duties appeared to be they had not until it was shown that the foreign manufacturers of articles where imported in such large quantities did it in the United States, notwithstanding it shut off the market to the American people never obtained a dime.

The resolution of denunciation of American manufacturers by oratored free traders indicated that they preferred the prosperity of a foreign manufacturer to that of their own countrymen.

The Home Market

Morrill made a comparison of wages in this country and in Europe, and claimed that the depression in agricultural products was general throughout the world. The time is near for this depression was to create a better market at home by a greater diversity of home industrial employment, until the abounding mineral resources of the United States the task would not appear difficult. He contrasted the statements made as to the depression being caused by excessive farm mortgages and predicted that if the forth coming elections resulted in his statement the farm mortgage indebtedness would be less than was generally supposed. With reference to imports of foreign agricultural products, Morrill said there had been imported from Canada from 1881 to 1889 inclusive \$1,923,271 worth grain, partly breadstuffs, potatos, eggs, wheat, tobacco, beans and peas, barley and rice. To denote that American farmers did not need and did not have protection was a gigantic untruth.

A SWELL AFFAIR

Mrs Corinna Vanderbilt's Luncheon at Oaklands

NEWPORT, R. I., July 30.—The weather did not promise well for Mrs Cornelius Vanderbilt's luncheon on Oakland, in South Portsmouth Tuesday. A large tent of red cloth was erected on the lawn north of the fairhouse and in close proximity to the kitchen where no less than a dozen cooks were at work preparing one of the most elaborate luncheons of the season. Everything was served hot. A raised platform kept the feet of the ladies from coming in contact with the wet grass. Seven full courses were served and at least seven kinds of wine brought out. Mr and Mrs Vanderbilt received their guests under a towering oak tree. After the menu had been fully discussed the guests inspected the farm cattle, horses, sheep and so forth. There was neither music nor dancing but two oarsome dances were formed and a match game was played. Over one half the players were ladies.

Nominated for Governor

LINCOLN, Neb., July 30.—John H. Powers, of Hitchcock county, president of the state Farmers' alliance, was nominated for governor on the second ballot by the independent people's state convention. W. D. Beck of Saunders county was nominated for lieutenant governor and Charles M. Maybury of Pawnee county, for secretary of state.

Burglars Make a Raid.

DENVER, Colo., July 30.—Burglars entered the local ticket office of the Union Pacific railroad at Seventeenth and Larimer streets, some time after midnight, blew open the safe and robbed the cash box of about \$1,500. The police arrested four men Tuesday who are suspected of being implicated.

Plans to Make Another Trip.

TACOMA, Wash., July 30.—The Ledger states that George Francis Train has made arrangements with that paper to make an attempt to beat the record for a trip around the world. Train will leave Tacoma on the steamship China Aug. 7, and says he can't make the circuit of the globe in fifty seven.

Death of a Famous Sprinter.

NEW YORK, July 30.—Walter G. Hege- man, known to the entire athletic world as a handicapper and sprinter, died Tuesday after a long and painful illness. His death was caused by a cancer at the base of the brain, the result of an accidental blow.

A Denial from Governor Campbell.

COLUMBUS, Ohio, July 30.—Governor Campbell denies that he said, as represented in a published interview, that he would resist with the state militia any attempt to enforce the federal election bill in Ohio if it should become a law.

POLITICAL CONVENTIONS

The Patrons and Prohibitionists at Lansing, Mich.—Tennessee and North Dakota Republicans.

LANSING, Mich., July 30.—After a lengthy debate Wednesday forenoon the Patrons convention appointed a committee of five to decide with the executive board the form of independent political action the order shall take and they reached the conclusion that no state ticket would be placed in the field but that as an order they would nominate full legislative and congressional tickets and invite in all reformers. They desire to capture the United States senator. Republians look upon this action as a triumph for their party.

The Prohibitionists.

The Prohibition state convention met Wednesday forenoon at Buck's Opera house with 15 delegates present. W. F. Tilden of Pewaukee, who ran for the legal ticket on the Democratic ticket two years ago, was appointed temporary chairman. The meeting was taken up with the routine work of organization.

Tennessee Republicans.

NASHVILLE, Tenn., July 30.—The Republican state convention was called to order noon by Hon. John J. Walker, of the state committee. He designated Hon. Zacharias Taylor of Shelby county, as temporary chairman and J. T. Boyd and W. S. Lupton as secretaries, which action was approved by the convention. There was a large attendance of delegates, with a few members of colored men on hand but not much. After the appointment of the various committees the convention took a recess till 2 p.m.

North Dakota Republican Convention.

MINNEAPOLIS, Minn., July 30.—The Journal's Grand Forks, N. D. special says the Republican state convention re-assembled Wednesday morning but the credentials committee was not ready to report and an adjournment until 2 p.m. was taken. One member precipitated a no doubt by declaring that the credentials committee was "packed" in favor of Haussman.

LABOR TROUBLES AT DUQUOIN

Some Negro Soldiers Won over to the Strikers—Lynchings Took

DUQUOIN, Ills., July 30.—The twenty-five colored miners imported from Springfield by the Jupiter Mining company were met at the barracks Monday night and asked by the white miners to stay out of the barracks, built for them. The strikers offered to pay their fare back to Springfield, but the only name given was that the miners made it was to meet their committee at the mines at 10 o'clock Tuesday.

The Strikers' Success.

At 9 o'clock Tuesday morning, all of the miners being out, a procession headed by a man carrying an American flag and a brass band was formed and about 800 miners marched to the mines where a committee of four met and an equal number of the colored men and it was soon agreed that the colored men should quit the premises in a body and the committee no longer held out a show of strength. The miners who had been staying at the barracks, built for them, had accommodated fifty men and are so situated that access to them without detection is difficult.

Wild Talk Prevailed.

Thirteen of the colored men however, were determined to stay and as yet have not been induced to leave although threats to lynch them and burn the tip houses still are being made by the whites who were orderly Tuesday morning but later went to drinking and grew very unruly. The barracks will accommodate fifty men and are so situated that access to them without detection is difficult.

The Negroes Well Armed.

The tenents are all armed and say that they will molest and shoot to kill while the whites declare that unless they accede to their wishes serious trouble may be looked for. At a late hour Tuesday night the colored men who agreed to do so left the barracks and later for Springfield.

Looters and Looters.

Three of the best equipped printing offices in the state. The Courier, Reveille and Journal. He burn in the ruins. But a few losses and insurance are obtainable. The loss on the opera house is about \$30,000 insurance \$10,000 Hoag's hotel \$27,000 insurance \$2,000 Addison's loss \$10,000 insurance \$1,000 Jacoby, the insurance man places the loss at \$30,000 with a probable insurance of one quarter the amount. The loss on buildings is estimated at about \$20,000. The mail was wholly removed from the postoffice but the safe could not be reached, and the books, money stamp etc, it is hoped are safely stored in the waters of the raceway beneath Grand Army hall in the third story of the Daniels block is among the things that were lost. A part of the records of Cross post, including its charter and the irreparable loss of many relics and mementoes will be a source of regret to veterans. John D. Ford, of the paid fire department had a leg broken by a flying pipe and hose. All the saloons are closed by order of President Rumsey.

Defrauded His Workmen.

UTICA, N. Y., July 30.—Le Grand Soriano, a man of some prominence here, was arrested Tuesday night on a requisition from Pennsylvania, charging him with bringing property into this state from Pennsylvania with intent to defraud his creditors. He was a lumber contractor for the firm of F. H. & C. W. Goodyear of Buffalo, and employed 125 men, to whom it is alleged, he owed \$6,000. It is said that on July 1, instead of paying his men with \$6,000 which he received for that purpose, he drove his horses and wagon across the state line, taking the cash with him. He is about 38 years of age and has a wife and children for the present.

War Against the Tramps.

BOONE, Ia., July 30.—The Ledger states that George Francis Train has made arrangements with that paper to make an attempt to beat the record for a trip around the world. Train will leave Tacoma on the steamship China Aug. 7, and says he can't make the circuit of the globe in fifty seven.

Epidemic of Typhoid Fever.

LANCASTER, Pa., July 30.—The Pelham pit at St Etienne, in which an explosion of fire damp occurred Tuesday, has been cleared and fifty nine miners have been rescued. The bodies of ninety eight victims have been recovered.

Illinois Legislature.

SPRINGFIELD, Ill., July 30.—In the session Wednesday morning fifteen requests for leaves of absence were granted. The speaker said he was unable to answer the question Buchanan of New Jersey, thought the requests better over until it could be ascertained and this was agreed to.

McCormick of Maryland called up the conference report on the District of Columbia appropriation bill, and the house concurred in it.

Death of a Famous Sprinter.

NEW YORK, July 30.—Walter G. Hege- man, known to the entire athletic world as a handicapper and sprinter, died Tuesday after a long and painful illness. His death was caused by a cancer at the base of the brain, the result of an accidental blow.

A Denial from Governor Campbell.

COLUMBUS, Ohio, July 30.—Governor Campbell denies that he said, as represented in a published interview, that he would resist with the state militia any attempt to enforce the federal election bill in Ohio if it should become a law.

SWEPT BY THE FLAMES.

A Raging Conflagration at Seneca Falls, N. Y.

IT ORIGINATED IN A FIRE-TRAP.

And spread with amazing rapidity to some of the finest business blocks in the city, which were destroyed—Help rendered from other towns and the flames finally subdued after a hard and long fight.

SYRACUSE, N. Y., July 30.—A special to The Herald from Seneca Falls gives the following particulars of the fire there. The inevitable has occurred. The Paw building against the erection of which three or more years ago such earnest protest was made fulfilled its mission as a fire trap and it is feared that it has also proven a death trap. A few minutes after 3 o'clock Wednesday morning the building which was directly opposite the entire structure was on fire. Had caught but the shell suffered there would have been trifling cause for regret, but at 7 o'clock the greatest commercial portion of the town was in ashes or in flames. The Paw building was approached from but one side and the atmosphere quickly became so hot that the flames could not endure with the iron heel of the one man power securely resting on that calendar.

The reason that the house had not done more business and disposed of more bills, was that it ignored in its organization and in its conduct rules the fundamental principles of parliamentary discussion.

The Maximum Contribution.

There was no one, however rich, shall be allowed to give more except in cases of people being too poor to give even that small amount, than others in the same district or state should be allowed to make up the deficiency. The population in the territory referred to cannot be less than 45,000,000, and at the rate named the collection would yield \$2,250,000 giving \$50,000 for grading and foundations and substructure and \$2,000 for the monument proper."

Spread of the Flames.

In State street the fire lapped up the Hudson house and blacksmith shop, George's barber shop, Farnes' store, the Norcott block, including Gomber's liquor store, Hall's cigar factory, Hanna's secondhand store, Chinese laundry, Donson's shoe shop, Kellogg's livery and the two rear houses next thereto. Among the tenants who lose heavily are The Journal office, Nunnell Bros., Nelhe Jennings, C. Wayne, Jacob Allen, John H. Cowell, T. R. Lawrence, Sutherland & Squares, Madden's news room, Mather Bros' store and barbershop, Mrs. Hadley's millinery store, Van Kleek's and Gilmore's drug stores and Ilou's drug store, Caney & Waller's hardware store, Hill's grocery, Addison's shoe store, Phillips & Hawley's hardware store, Blodgett's dry goods store, Howe's hat store, besides many tenants in the rooms above the stores.

Help from Other Towns.

A steamer came from Waterloo soon after daylight and about 6 o'clock a train came in with a steamer from Geneva. An extra steamer from the Seneca Falls was also in service besides the two village steamers. All three newspapers and telephones services are suspended. The Gleasons' works were several times on fire, but the flames were kept down with little injury. The Western Union Telegraph company is doing business at the railroad station. The fire was under control at 1 o'clock in the morning.

The fire was confined to the territory already named. The buildings consumed embrace the three stores, the livery blacksmith shop and three houses, and the rear block, but the front block was untouched by the flames.

The Guatemalans were defeated by the Guatemalans and sustained a loss of sixty killed, 200 wounded, and a large number of prisoners. The Guatemalans have been victorious. The remnants of the Guatemala army have fled in the greatest disorder toward the interior, and not a single Guatemalan remains on the frontier. The revolution started against the Guatemalans were beaten by the Guatemalans and sustained a loss of sixty killed, 200 wounded, and a large number of prisoners. The Guatemalans lost nearly half of their force.

SARA ALTHEA AGAIN

Her Old Case Against Sharon Once More on Trial.

SAN FRANCISCO, July 30.—The old Sharon divorce case came up again Tuesday, Mrs. Terry's counsel arguing that the decree cancelling the marriage contracts should be set aside.

The court against the introduction of testimony proving that the parties were actually married. Judge Shaffer granted this and Sarah Althea told of her relations with Samia of Sharon. But all this was拭ed out when counsel for the Sharon estate obtained from her the ad

mission that she had no written testimony

except the marriage contract that had been annulled.

On motion, therefore, the judge ruled out all oral testimony.

Five volumes of testimony taken at the first trial were admitted. Also letters written by Sharon to Sarah Althea. These she was forced to leave with the court although heretofore only photographic copies had been produced. Sarah Althea was an extremely wimpy one and the rays of the sun fell directly on the barrel, and it was supposed that the rays caused the explosion.

An EXPLOSION OF WHISKY

It Wrecks a Building and Injures Three Persons.

SYRACUSE, N. Y., July 30.—An explosion of a barrel half full of whisky at the corner of Grape and Adams streets Tuesday caused a great deal of excitement. The force of the explosion shattered window panes, scattered barrels and boxes in all directions, besides injuring three persons. James Fayle keeps a liquor store on the corner, and he left the barrel standing near the sidewalk the last sun neath all day. The explosion threw Fayle into the air. He received a serious cut on his eye and his ankle sprained and his left wrist fractured. He was picked up sensibly.

A BABY IN THE WRECK.

A baby carriage was thrown into a heap on the sidewalk and injured. Pieces of the barrel were thrown nearly half a block away. The report was heard by blocks and the police and difficulty in keeping the crowds away. Hardly a sign of the spilled liquor could be found after the explosion. The entire front of the store was shattered. The circumstances are peculiar. The day was an extremely warm one and the rays of the sun fell directly on the barrel, and it was supposed that the rays caused the explosion.

The Steeple Collision.

BALTIMORE, Md., July 30.—The jury found the steamer responsible for the collision between the steamer and the steeple of the First Methodist church. The steamer was moving along the river and the steeple was struck by the bow of the steamer.

Two Boys Crucified to Death.

BLOOMINGTON, Ills., July 30.—A senseless waif created here when it became known that Mrs. Annie McMillan, a cousin of Gov. and Campbell, of Ohio had commenced proceedings from a divorce from her husband, Frederick McMillan, who was formerly agent here of the Standard Oil company, but has since been a stone mason, was maimed and will probably never walk again. The boy was born with a club foot and severely crippled. He could not walk and will probably never walk again. He has a wife and two children.

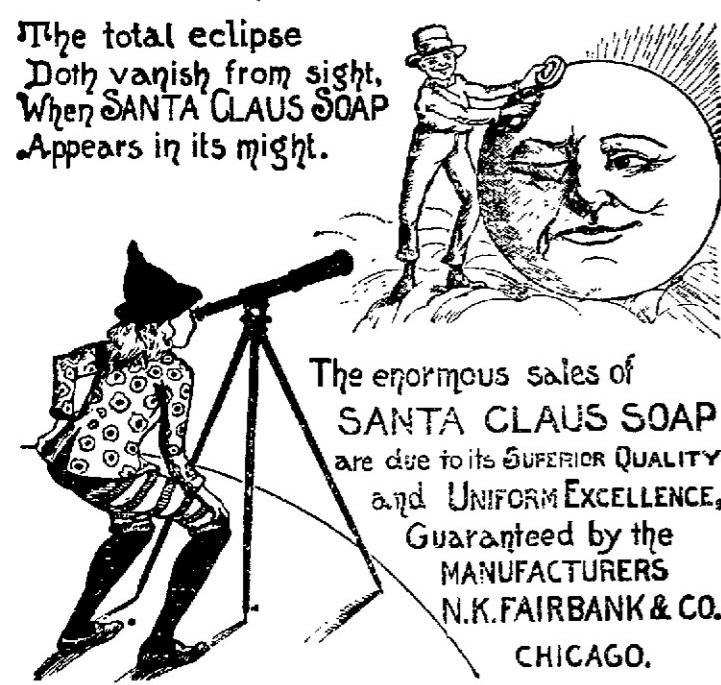

She Wants a Divorce.

NEW YORK, July 30.—Archibald Smith, about 19 years old, was driving a wagon filled with crushed stone at Lafayette, near this place. Two boys, Robert Grant and Melville Greenwald, were seated on the wagon when the front end dropped off, allowing the stone to fall against the horses legs, frightening them so that they ran away. Smith, the driver, was thrown onto the horses and seriously injured, while Grant and Greenwald were crushed to death, the former under the stone and the latter by the wheels passing over his breast.

A Horrible Story.

PORLTAND, Me., July 30.—Charles Thompson, his wife and son's wife, of Great Chebeague island, report that while berrying in Goose Island, near Chebeague, they came across the remains of the bodies of some children. One rock was four hands and four feet recently cut off. A large fire had been built near by and in the charred wood were bones as the children's bodies had been burned. They left their story to the captain of a steamer, who brought it here. Coroner Davis will go down to the scene.

An Equine Marvel.

New Yorkers are not easily taken aback, but a large number of those who happened to be in the neighborhood of the Tribune building the other day were considerably surprised, to say the least. A man seated in a buggy, and driving what at first sight appeared to be a horse, drew up before the Tribune. The man's name is Frank Fraundfelter, of Easton, Pa., and he said the animal was a "buffalo horse."

He had just bought it from Oscar Stepler, in Monroe county, Pa., who had bought the animal's mother (a mare) out of a drove of Texas horses about twelve years ago. The "buffalo horse" is a gelding, 15-16 hands in height and weighs 1,100 pounds. It is completely covered with a coat resembling coarse buffalo fur, in close curly eight inch long, growing equally thick and long on all portions of the body and legs.

In the winter, Mr. Fraundfelter said, the hair grows longer. This long, curly buffalo hair gives the horse a remarkable appearance, the more so as the hair on the legs is as dense as any other part, making them look like four thick fur covered posts. In its gait it resembles a cow more than a horse. Nevertheless it is said to be a good rooster and has the pulling power of a mule. The shape of the animal is said to be that of a buffalo, and in fact it is.

The hair is the same as the growth of hair here. In its hindquarters, also, the horse closely resembles the buffalo. The owner said that neither he nor Mr. Stepler ever heard of a similar animal.—New York Tribune.

A Good Start.

Some one set a pile of paper on fire behind Blank & Grass' store yesterday afternoon and went off, leaving it to blow around as pleased. It chose to light on a dry manure pile against an old shed of a stable and soon had the manure in a blaze. T. S. Carr saw the blaze when it was six feet high, raised an alarm and then began carrying water. He had the fire out by the time the department got there, which was not long. It would have been a good day for a fire, and there are a great many old sheds in that vicinity that would have been just the thing to start a conflagration which would have made cinders of five or six good business blocks.

Publie Nuisances.

Several complaints have reached our ears concerning the condition of certain out-houses in the north part of the Second ward. They are reported as very offensive both in odor and appearance, and must be dangerous to the health of those living in the neighborhood. It was suggested that the attention of the board of health be called to them at once.

The Sewer.

The steam pump is devoting its energies to keeping the water out of the excavation at Cerro Gordo street and Broadway, and a hand pump has been put in at the head of the sewer trench, that furnishes employment for two men, and gives them good exercise. The big ditch gets deeper every day now, and has reached a depth of 21 feet. It will reach 23 feet at the deepest point. A man at the bottom of it does not look very large to one standing above and looking down. It will be one month tomorrow since the construction was com-

pleted.

An Equine Marvel.

New Yorkers are not easily taken aback, but a large number of those who happened to be in the neighborhood of the Tribune building the other day were considerably surprised, to say the least. A man seated in a buggy, and driving what at first sight appeared to be a horse, drew up before the Tribune. The man's name is Frank Fraundfelter, of Easton, Pa., and he said the animal was a "buffalo horse."

He had just bought it from Oscar Stepler, in Monroe county, Pa., who had bought the animal's mother (a mare) out of a drove of Texas horses about twelve years ago. The "buffalo horse" is a gelding, 15-16 hands in height and weighs 1,100 pounds. It is completely covered with a coat resembling coarse buffalo fur, in close curly eight inch long, growing equally thick and long on all portions of the body and legs.

Mrs. Annie Young returned yesterday to her home at Bloomington, after a visit here with the family of R. J. Young at 644 West King street.

Among visitors to Decatur yesterday were: C. B. Smith, Macon; John A. Cousins, John Wacker, James Muldoon, John Mooney, Niantic; Ezekiel Prescott, Moweaqua; C. G. Messenger, Bloomington; Mr. and Mrs. John McClure, Bement; J. M. Higgins, wife and two daughters, Macon; Will Body, Bement.

Minstrels Last Night.

A fair house heard Primrose & West's minstrels at the Grand last night, and were principally entertained. The company is much above the average of minstrel companies traveling, and stands well up among the best. There were some new songs, some new jokes, and most of the entertainment was clean, though one or two of the gags ought to have been omitted. The stage was beautifully set, and the performers richly costumed for the first part, which introduced the usual grit of jokes, new and old, and some very good singing, both humorous and sentimental. Fred Oakland sang a new ballad, The Light Ship Straight Ahead, which deservedly made quite a hit.

The waltz chorus of it was beautiful. George H. Primrose, in his imitation of an English swell was excellent. Lew Dockster, in his specialty, Misfit, caught the house with his gags and songs. The march of the Imperials was a series of intricate figures, and showed good drilling, but was a failure so far as the electrical effects were concerned. The incandescent lights failed to work, much to the disappointment of the audience and doubtless of the company also. The pantomime, a Horrible Night, that finished the performance, was a confusing affair with many laughable features.

The entertainment was doubtless satisfactory to most in spite of the disappointment at not seeing the illuminated march, as well as the musical figure Love Among the Reeds and The Promenade of the Popinjays, which were advertised but not given. The company goes to Springfield this morning at 6:45.

TRACK AND TRAIN.

E. O. Hopkins, of the P. D. & E., was in Decatur yesterday.

Charles Newell and wife have returned from their visit at Mendota.

A. M. Legg, traveling auditor of the Washash, was in Decatur yesterday.

The I. C. freight carried a heavy train loaded with watermelons north yesterday afternoon.

Charley Rice is conductor of the train now working with the steam shovel at the Sangamon bridge on the St. Louis branch.

Engineer Bert Hardings, of Paris, whose arm was crushed some weeks ago, recovered sufficiently to go to work. He was in Decatur yesterday.

Another switch engine went to work in the Wabash yards, making four in all now.

Plan McAvoy is in charge of the crew. Increased business has made the addition necessary.

But few persons who view a passenger train as it goes thundering past, have an idea that it represents a cash value of from \$75,000 to \$120,000, but such is the case.

The ordinary express train represents from \$33,000 to \$90. The engine and tender are valued at \$10,500; the baggage car at \$1,000; the postal car, \$2,000; the smoking car, \$5,000; two ordinary passenger cars, \$10,000 each; three palace cars, \$15,000 each—total, \$88,000. Many trains are worth \$150,000.

Funerals.

Yesterday afternoon at 3:30 occurred the funeral of Mr. and Mrs. Henry S. Bigelow's infant child, from their home, 537 East Bradford street. Rev. J. A. F. King conducted the services.

The funeral of Mrs. Ann Noetling will be held to-day at 10 a. m. from her late home, 930 South Franklin street.

The time of the funeral of Mrs. Mary Kochier will be Friday afternoon at 3 p. m. from the German Catholic church.

Hot and Dry.

Rain is badly needed in this vicinity.

In many localities rain has not fallen for many days, and corn is suffering. Grass will also be light in case rain does not come soon.

Yesterday a strong southwest wind blew the dust about at a lively rate. The lawns in the city show the lack of water, and a rain now would prove a blessing. The thermometer yesterday reached 98, and at 9 o'clock last night registered 96.

THE HALLELUJAH WEDDING.

A Big Crowd Witness Military Nuptials at Oakland Park.

Probably no wedding in Decatur has been attended by a larger crowd than that which witnessed the marriage last night of Captain Edward S. Albertson and Captain Hattie M. Huckleberry, of the Salvation Army, at the camp meeting at Oakland Park.

The invitations were quite general, consisting only of the possession of a 10 cent piece, so it is not surprising that there was an attendance of perhaps 2,000, mostly women. The average woman would go farther than out to Oakland Park to see a wedding and be willing to pay more than 10 cents too. There were some men in the audience, quite a sprinkling, but they undoubtedly were present only as escorts for the ladies.

The wedding came after the usual evening service of the Army. It was about 9 o'clock that Major Stillwell announced the marriage ceremony as the next thing in order. Then the band began playing a soul stirring march of joyful strain, but it was neither Mendelssohn nor from the "Lohegrin." At any rate it brought to the feet half the audience, that packed the big tent, and caused a murmur of interest to run through the crowd.

The bridal party approached from a small tent to one side. First came the groom, with the bride leaning on his arm, followed by the bridesmaid, Lieut. Maud Canfield, of Peoria, formerly of Decatur, and the best man, Captain Nobie, of Decatur. All were dressed in full uniform, the garments, however, being all new, apparently, and worn for the first time. The men wore the regulation blue coats, with red vests underneath, while the women had the big blue poka bonnets, red garters, and blue skirts falling straight to the ground. Each man had a white rosette in the lapel of his coat, while the women each wore white scarfs. The white ornaments were the only evidence in their costumes of the joyous occasion that was at hand.

The bridal party ascended the platform and paused beneath a long arch of evergreen extending from one side of the platform to the other. Just above their heads was the motto, "United for God and the Army," in flaming red letters. The couple stood the gaze of the thousands without flinching. Nearly every one looked at the two principal characters with a curious interest. In the bride they saw a plump little round faced girl, not exactly pretty, but with a sweet expression that will be remembered for her friends.

The man arrested at Taylorville suspected of the outrage on Mrs. Foster was not brought here yesterday and there are no others in prospect as yet.

The I. D. & W. has arranged a series of Niagara Falls excursions for 37 for the round trip. They will leave Decatur on July 31, Aug. 6, 10, and 21.

Mike O'Connor is recovering from the stiffness caused by his accident on the wheel, and expects to go back on his mail carrier's route this morning.

There have been six additions to the Normal this week. Examinations will be held next week and the regular institute will follow the week after.

Over 100 copies of Dr. Bustead's book, "The Rivers," have been sold already in Decatur. They have been on sale only since last Thursday.

The five leaders on first choice are Fairview, Shell, Spring Valley, Jefferson and Washington, the latter dropping from fourth to fifth place. Forest dropped from the list of leaders, and Jefferson advancing to fourth place.

It should be remembered that the five highest are to be submitted to the city council. This should stimulate all to make an effort to have their favorites among the leaders.

SECOND CHOICE.

The vote on second choice yesterday was Big Oak, 44; Columbia, 21; Washington, 20; Forest, 18; Fairview, 15; Kanan, 10; Crystal Lake, 8; Shell, 7; Spring Valley, 7; Logan, 6; Decatur, 5; Oakview, 4; Glendale 4; Cleveland 3; Peoples, 3; Eden 3; Spring Grove, 2; Lakeside 2; Phoenix, 2; West Lynn, 2; Recreation, 2; Grove, 2; and Riverside, 1; Martin, Woodland, Short Line, Sans Souci, Oakwood, Bluff, Rathbone, Linwood, Windsor, Oglesby, Paradise, Lafayette, Cosmopolitan, Summerside, Macon, Central, West End and Gladstone one each.

The five leaders on second choice are the same as yesterday, Forest, Big Oak, Fairview, Columbia and Washington. There are only a few votes between the first two named.

ANOTHER ENCLIQUE SUGGESTION.

EDITOR REVIEW—I made a visit to the old fair grounds yesterday, and tried to choose a suitable name for the park. It is surrounded on three and a part of the fourth sides by a ridge, and over two-thirds of the trees are elm, therefore I suggest Elm Ridge. As to Fairview, there is no will never be any. The view part is out of sight, as you can see nothing but the ridge. I do not think Fairview to be the subject in this light. Yours truly,

E. B. WALSTON.

The Campmeeting To-Day.

Everything is in good shape for an auspicious opening of the seventh annual encampment of the National Prohibition campmeeting. The tents are up in fine shape. J. H. Hector, the first speaker on deck, arrived from Indianapolis yesterday afternoon and is at the New Brunswick. He is a large, good natured colored man with an interesting history, and is said to be the modern Fred Douglass of the plateau.

The Jingler Convent company were also on time. They were met at the depot at 9 o'clock last night and quartered at the European hotel. They will be on hand to make things jingle at the morning meeting.

Goodman's band begins to play at 8 o'clock and the children will gather at the W. C. T. U. rooms at 8, when with flags and banners they form a procession and led by Goodman's band march to the park. There will be speaking and lively music all day and at night.

NOTES.

Mr. and Mrs. F. M. Doxsee of Bloomington, arrived last evening and will tent during the camp meeting.

William Funk on West Main street is entertaining Mr. and Mrs. Hammond, of Bloomington, who are here for the meeting.

A. F. Smith yesterday made a purchase of 400 bags of various sizes, to be used in displaying prohibition patriotism during the campmeeting.

W. H. Barton, of the Chicago Leader, is the first newspaper man to reach the city on account of the prohibition campmeeting, and will remain on the grounds throughout the meeting.

More Gait.

Lincoln Monitor.

John Edmunds, of The Evening Journal of Chicago. Yesterday he sent a despatch to this paper announcing that The Monitor had suspended because it could not compete with The Courier, which was supported by a strong stock company, etc.

This stupendous exhibition of gall created a broad grin all over the city, and had it not been for the sinister motive would be amusing. The Monitor never thought of suspending and Mr. Edmunds was well acquainted with that fact. As for the stock company the principal stockholder seems to be Seigel Mahr, at least that gentleman does not usually receive stock with bill of lading attached and that is the form in which a few bundles of paper arrived for the Courier to-day.

ROYAL BAKING POWDER.

A cream of tartar baking powder. Highest in flavor and strength—U. S. Government Standard. June, 1890.

GOOD CLOTHES.

Tailors who are competent to do good work do not hesitate to join the Tailor's Union. Nine of the ten men who do not belong to the Union are not competent to do good work.

If you want good work, see that it goes to Union Tailors. Then there will be no danger of your wearing a mis-fit suit of clothes. The firms whose names are given below employ only union tailors.
